

**EPS** CONCEPT

Producer and installer of sports equipment

The passion for the sport that drives our team contributes to the quality and diversity of sports equipment that we propose.

Our range answer to your requirements from standard products to tailor made.

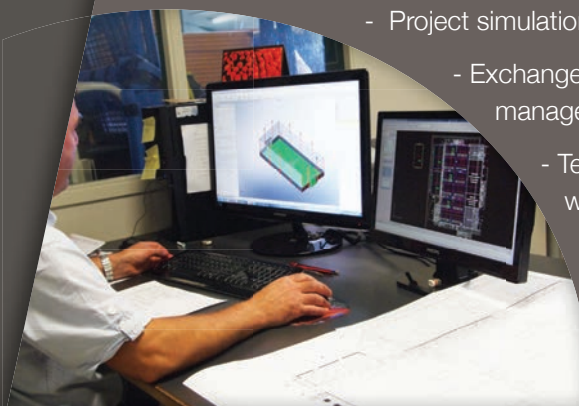

Quality, safety, reliability, competitiveness, with EPS you will always find the best solution.

**A team of experts at your service**

## DESIGN SERVICE

From project to completion, from standard to custom, our design service goes along with you.

- Help for setting up your specifications
- Project simulations
- Exchange views with project manager
- Technical support until work completion

## FRENCH LEADER

IN DESIGN AND MANUFACTURE  
FOR INDOOR SOCCER

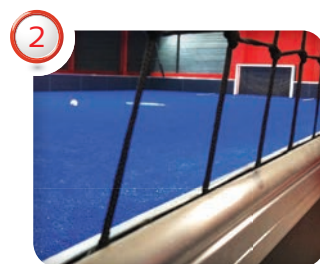

We offer you 2vs2 - 3vs3 - 4vs4 - 5vs5 - 6vs6 - 7vs7 pitches.

Size sticked to your requirements and configuration of your building.

Each pitch includes :

- All the structure required for boarding and nets support, color of your choice
- Wooden medium boarding 2 sides, 1m height, thickness 30mm, color of your choice

Net and fence connected by aluminium rail

Solidity, aesthetics, safety

No protruding ridge and «no finger pinching system»

Access gate which allow a way of 2 x 1.10m with medium board base and laminated steel framework on the top.

Automatic closing hinge with shock absorber

Goals steel made tube Ø76mm or Ø101mm zinc coated and thermolacquered.

Size adapted to soccer pitch dimensions.

Depth from 0.35 to 1.00m.

## WORKSHOP

All our equipments are manufactured in our workshop

A **quality control** is brought for each step: crosscut, assembly, protection, test assembly

## INSTALLATION AND MAINTENANCE

EPS CONCEPT provides **full installation of your equipment.**

Our installation teams travel throughout France and in the world and ensure the installation according to the schedule.

We also offer a **maintenance contract.**

EPS CONCEPT is **QUALISPORT certified** which testify expertise, serious work and reliability

Height above ground: 5.00m. The posts are 6.00m high in order to suspend the net domed roof.

Zinc coated and thermolacquered steel structure, color of your choice. Post strengthened for better retention of net roof and spotlight.

Sandwich boards height 1.15m, thickness 60mm, white.

Access gate which allow a way of 2 x 1.10m with sandwich board base and laminated steel framework on the top.

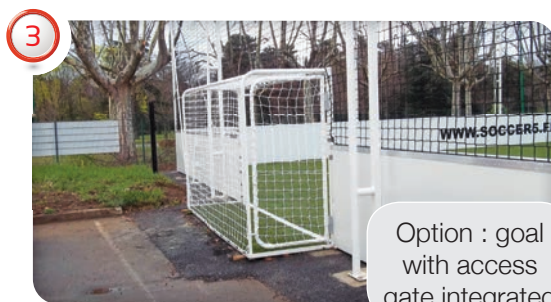

Net and fence connected by aluminium rail

Solidity, aesthetics, safety

No protruding ridge and «no finger pinching system»

Option : goal with access gate integrated

Goals steel made tube  $\varnothing 76\text{mm}$  or  $\varnothing 101\text{mm}$  zinc coated and thermolacquered.

Size adapted to soccer pitch dimensions.

Depth from 0.35 to 1.00m.

Post strengthened

Robust, aesthetics, better retention of net roof

# OUTDOOR PITCHES

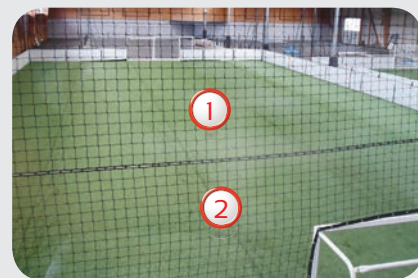

## MORE RESISTANT

### NETS

We developed a new system of reinforcement and fixing nets increasing their durability and easy replacement.

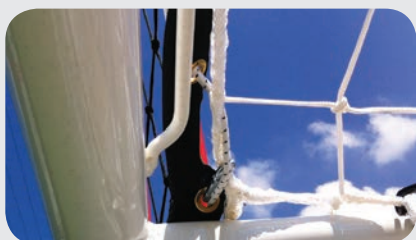

**Nets hanging system on the goal by welded tube**

**Net in 2 parts** to make the maintenance easier :

① Upper net

② Lower net part to be replaced after wear

**Around the goals**

Strengthening band and eyelet on side nets.

**Board junction**

Strengthening band to absorb shocks and prevent tearings

**Length and width net**

Ø5mm square mesh of 100, height 4m to 6m above the boards.

## LATEST GENERATION

### SYNTHETIC TURF

2 kinds of synthetic turf available :

**Synthetic turf with infill**

Synthetic turf with infill.

Straight fibrillated polyethylene yarn.

Pile height 50mm, color green - Infill with sand and granulates.

**Synthetic turf without infill**

Specially developed for 5 a side soccer.

Synthetic turf without infill with polyethylene 10mm shockpad for absorption.

Pile height around 35mm - color green with white lines.

Logo and other turf colors : ask us

# YOUR PROJECTS

ARE DESIGNED AND PRODUCED TO TAILOR MADE

**5vs5 pitch can be part in 2 3vs3**  
Goal with removable back.

Opened position

Closed position

## BEACH Soccer pitches

We supply and install beach sports like beachsoccer, beachvolley.

## MULTISPORTS pitches

on synthetic turf or PVC floor covering.

# MODULAR AND SELF SUPPORTING

SOLUTIONS

**These solutions are designed for temporary events (exhibitions, sporting events...)**

Structure equipments and synthetic are available for rent or for sale : ask us

Large pitch structure

CUSTOMIZATION

EVENTS
